DETAILED ACTION

1. Applicant's Amendment E, dated June 21, 2004, which directly amends claims 25 and 86 and adds new claim 99, is acknowledged. The Examiner agrees that the amendment to claim 86 overcomes the rejection under 35 U.S.C. 112, 2nd paragraph given in section 2 of the 3/18/04 Office Action. Also, based on Applicant's arguments in said amendment, the Examiner agrees that claims 49, 50, 52-56, 58-70, 72-95, and 97-99 define over the applied art discussed in sections 5-7 of said Office Action.

Amended claim 25 and its dependent claims, however, are still rejected, as discussed below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 25-29, 33, 36-45, 47 and 48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 3641

The new matter pertains to the means for providing circulation of flowing gas through the chamber, and this means is recited as being between the inlet means for introducing gas into the chamber and the outlet means for evacuating gas circulated through said chamber (e.g. see amended claim 25).

3. Claims 25-29, 33, 36-45, 47 and 48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. There is no support in the specification for the new matter discussed in section 2 above.

4. Claims 25-29, 33, 36-45, 47 and 48 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The means for providing circulation of flowing gas through the chamber critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

5. Claims 25-29, 33, 36-45, 47 and 48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are vague and

Art Unit: 3641

indefinite, and their metes and bounds of the claims cannot be determined, for the reason given in section 3 above.

Allowable Subject Matter

6. Claims 49, 50, 52-56, 58-70, 72-95, and 97-99 are allowable.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
